

Course Proposal Form

Course Information

Course Type

PGEC - Postgraduate Education Course

Course Title

Community-acquired pneumonia in the elderly: *Pneumonia Old Man's Friend*

City

Pula

Country

Croatia

Course Date and Duration

October 23, 2015

Organizers

ESCMID Study Group for Infections in the Elderly (ESGIE)

The Public Health Institute of the Istrian Region (PHIIR)

The Croatian Society of Infectious Diseases (CSID) of the Croatian Medical Association

The Croatian Society of Clinical Microbiology (CSCM) of the Croatian Medical Association

Course Coordinators

Nicola Petrosillo (Rome, Italy)

Aleksandar Stojanović (Pula, Croatia)

Mirna Vranić-Ladavac (Pula, Croatia)

Rok Čivljak (Zagreb, Croatia)

Course Objectives / Description

Community-acquired pneumonia (CAP) in the elderly is a growing problem due to increasing population of the elderly, high incidence and mortality, emerging problem of antimicrobial resistance and decreasing choice of new antimicrobials. Since *Streptococcus pneumoniae* is the most common cause of CAP, the Course will especially address new preventive strategies that are underutilized in the prevention of invasive pneumococcal disease including CAP.

The course will provide participants with updated background information and a practical approach to all the concerns and disputable issues with leading experts in the field.

Course Venue

The Public Health Institute of the Istrian Region (PHIIR)

Nazorova 23, 52100 Pula, Croatia

Registration Fee

ESCMID/PHIIR/CSID/CSCM members: 400 HRK

All others: 400 HRK

Nurses and residents: 200 HRK.

The fee includes the scientific sessions (lectures, course material), coffee break and lunch.

Target Audience (incl. min/max number of participants)

The Course is targeting specialists from different areas of preventive, diagnostic and clinical medicine, such as clinical microbiology, infectious diseases, pulmonology, internal medicine, pediatrics, epidemiology, public health, and others, especially trainees, who are interested in the study of epidemiology, etiology, diagnostics, management and prevention of CAP in the elderly.

The maximum number of course participants is 100.

Faculty Members (in alphabetical order)

Branka Bedenić, Zagreb, Croatia

Rok Čivljak, Zagreb, Croatia

Javier Garau, Barcelona, Spain

Federico Pea, Udine, Italy

Nicola Petrosillo, Rome, Italy

Mario Poljak, Ljubljana, Slovenia

Aleksandar Stojanović, Pula, Croatia

Ilija Kuzman, Zagreb, Croatia

Mirna Vranić-Ladavac, Croatia

Course Program

Introduction

9:00 ESCMID/ECCMID – what's new in 2015 (Mario Poljak)
Aleksandar Stojanović (Director of the PHIIR)
Bruno Baršić, Croatian Society for Infectious Diseases

1st session: An up-to-date on community-acquired pneumonia (CAP)

9:40–10:00 Epidemiology of CAP: what's new (Rok Čivljak)
10:00–10:20 Current management of patients hospitalized with CAP (Javier Garau)
10:20–10:40 Out-hospital management of CAP in the elderly (Nicola Petrosillo)
10:40–11:10 Coffee break
11:10–11:30 In-hospital management of CAP in the elderly (Ilija Kuzman)
11:30–11:50 Elderly people and PK/PD parameters (Federico Pea)
11:50–12:20 Discussion
12:20–13:20 Lunch break

2nd session: CAP clinical cases

13:20–13:40 Infections in the elderly (Aleksandar Stojanović)
13:40–14:00 CAP microbiology: ground to be explored (Mirna Vranić-Ladavac)
14:00–14:20 Nursing home as a reservoir of resistant bacteria (Branka Bedenić)
14:20–14:40 Prevention of CAP (Rok Čivljak)
14:40–15:00 Discussion
15:00–15:30 Panel and conclusions
